FOURTH QUARTER 2016 INVESTOR CONFERENCE CALL

March 2, 2017

SAFE HARBOR STATEMENT

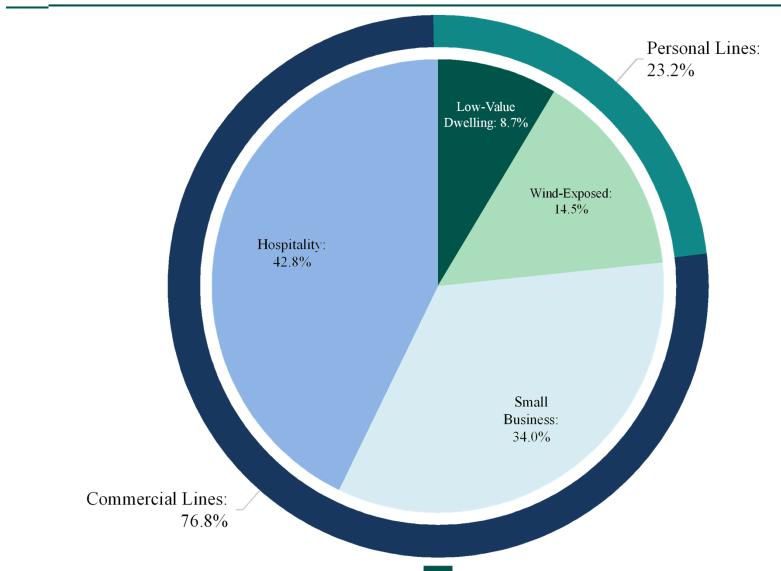

This presentation contains "forward-looking" statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that are based on our management's beliefs and assumptions and on information currently available to management. These forward-looking statements include, without limitation, statements regarding our industry, business strategy, plans, goals and expectations concerning our market position, product expansion, future operations, margins, profitability, future efficiencies, and other financial and operating information. When used in this discussion, the words "may," "believes," "intends," "seeks," "anticipates," "plans," "estimates," "expects," "should," "assumes," "continues," "potential," "could," "will," "future" and the negative of these or similar terms and phrases are intended to identify forward-looking statements.

Forward-looking statements involve known and unknown risks, uncertainties, inherent risks and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Forward-looking statements represent our management's beliefs and assumptions only as of the date of this presentation. Our actual future results may be materially different from what we expect due to factors largely outside our control, including the occurrence of severe weather conditions and other catastrophes, the cyclical nature of the insurance industry, future actions by regulators, our ability to obtain reinsurance coverage at reasonable rates and the effects of competition. These and other risks and uncertainties associated with our business are described under the heading "Risk Factors" in our most recently filed Annual Report on Form 10-K, which should be read in conjunction with this presentation. The company and subsidiaries operate in a dynamic business environment, and therefore the risks identified are not meant to be exhaustive. Risk factors change and new risks emerge frequently. Except as required by law, we assume no obligation to update these forward-looking statements publicly, or to update the reasons actual results could differ materially from those anticipated in the forward-looking statements, even if new information becomes available in the future.
